

## YUVA, Larsen & Toubro and D.Y. Patil Hospital

The Migration Resource Centre of YUVA (Youth for Unity and Voluntary Action) organized a health camp in collaboration with Larsen & Toubro Constructions and D.Y Patil Hospital, at migrant sites of Kharghar, Navi Mumbai in June 2012. The main groups targeted were migrant labourers working on construction sites.

The health check-ups took place in response to the needs of workers, who were found to be reporting various occupation-related illnesses and often did not get enough time to consult a doctor. The aim of the health camp was to make health services available to migrants at their doorstep. YUVA also registered the workers coming for health check-ups, and provided them with a health card complete with their medical history.
